

# ***EVCO Recruiting***

## ***Renewable Energy***

### **Our Approach is your Advantage...**

EVCO Recruiting has a unique method to developing a high quality candidate pipeline to ensure better hires in a shorter amount of time including:

#### **BigGreenBoard.com**

More than just a job board, BigGreenBoard.com is a Renewable Energy industry specific candidate database, interactive knowledge center and networking platform offered only to our clients, candidates and partners.

#### **Smart Seek**

Our web based process continually "crawls" through millions of renewable energy industry websites, professional and alumni association contact lists and other online sources to identify qualified professionals' that match your requirements and invites them to create an applicant profile and apply for your opportunity on BigGreenBoard.com.

#### **Industry and Affiliate Partnerships**

To ensure we capture a broad mix of professionals, your position is presented to more than just active job seekers. We cast the widest net possible by promoting your employment opportunities through multiple renewable energy sources including industry events as well as with related partner affiliate groups and associations.

#### **Big Green Newsletter**

Our weekly newsletter provides Renewable Energy industry professionals with valuable career advice, industry insight and has a client section that promotes your company and your career opportunities!

#### **About Us**

EVCO Recruiting has developed an aggressive recruiting formula, resulting in the creation of a high performance fully scalable, turn key recruiting solution for direct manufacturers, suppliers and indirect service providers within the Renewable Energy industry.
