

EVCO Recruiting

Renewable Energy

Services and Rate Sheet

EVCOdirect

When you partner with us to identify senior level talent, you will be meeting with the “best and brightest” professionals in the Renewable Energy industry. Our candidates are not actively seeking a new opportunity, but if a trusted advisor contacted them at the right time to present the right mix of responsibilities and challenges, they would be interested in learning more. We are the trusted advisor...You have the new opportunity!

This service is best for Clients:

- Seeking a senior level professional in which confidentiality, timing and extensive strategic planning is required.

Resources available:

- We utilize our network recruiting capabilities and perform a variety of research initiatives to locate and attract key industry performers and introduce them to your opportunity.

Fee Structure:

Negotiated flat fee and includes our candidate placement guarantee.

Recruitment on Demand

Whether we are partnering with your internal recruiting team, or managing your full service recruitment solution, we assign a dedicated team of recruitment consultants to work on your assignments to ensure dependability, predictability and consistency in knowing you are hiring the *right people* at the *right time*!

This service is best for Clients:

- Seeking a highly scalable, full service recruiting solution that offers consistent, efficient and measurable results.
- Requiring a cost effective talent management strategy that partners with your existing recruiting team to optimize the visibility of your employment brand.

Resources available:

Depending on the level of recruiting support requested, we provide all of the resources, recruiters, and applicant tracking technology required to ensure your hiring initiatives are successful. Bottom line...you incur none of the fixed costs of launching and operating a best in class recruitment department, but receive all of the benefits!

Fee Structure:

Monthly investment starts at \$8,000 and includes up to ten search assignments per month.

EmployEase

By handling all aspects of the employment relationship, we help you control COSTS and Eliminate RISKS.

This service is best for Clients:

- Seeking outsourced employment services for interns, contract positions, trial period employment or as a part of your overall contingent workforce solution.

Resources available:

We handle all aspects of the employment relationship, including payroll process, workers compensation coverage and offering consultants fully customized health plans.

Fee Structure:

Our fee is based on an hourly rate and invoiced weekly. You only pay for the hours the consultant works and you can cancel the assignment at any time.

About Us

EVCO Recruiting has developed an aggressive recruiting formula, resulting in the creation of a high performance fully scalable, turn key recruiting solution for direct manufacturers, suppliers and indirect service providers within the Renewable Energy industry.
